INDEX

Acidosis, respiratory and renal response, 27

Adrenolectomized rats and respiratory acidosis, 27

Albright, J. A.: (see Nagel, D. A.)

Amines and amino acids, uptake of, 21

Amino acids and amines, 21

Ammonia in blood, plasma, erythrocytes, 38

Andriole, V. T.: (see Thornton, G. F.)

Applewhite, P. B. and Morowitz, H. J.: The micrometazoa as model systems for studying the physiology of memory, 90

Arthritis, rheumatoid; and granulocyte survival, 289
staphylococcal and infection, 119

Atkins, E.: (see Haley, L. D.)

Atkins, E. and Morse, S. I.: Studies in staphylococcal fever, VI. Responses induced by cell walls and various fractions of staphylococci and their products, 297

Atomic bomb, effect of radiation on kidneys of in-utero children, 196

Bacteriuria present after water diuresis in rat, 255

Bennett, H. S.: The medical faculty, 359

Blood ammonia, 38

Bondy, P. K.: (see Hollingsworth, D. R.)

Book Reviews

Afzelius, B.: Anatomy of the cell, 277

Anson, B. J.: Morris' human anatomy, 12th ed, 269
